

MEDIEVAL CLOTHING (CONTINUED)

### DRESS IN ANGLO-SAXON ENGLAND

Revised and Enlarged Edition  
GALE R. OWEN-CROCKER

An encyclopaedic study of English dress from the fifth to the eleventh centuries, it draws evidence from archaeology, text and art (manuscripts, ivories, metalwork, stone sculpture, mosaics), and also from re-enactors' experience. It examines archaeological textiles, cloth production and the significance of imported cloth and foreign fashions. Dress is discussed as a marker of gender, ethnicity, status and social role and surviving dress fasteners and accessories are examined with regard to type and to geographical/chronological distribution. There are colour reconstructions of early Anglo-Saxon dress and a cutting pattern for a gown from the Bayeux tapestry.

### ANGLO-SAXON BUTTON BROOCHES

Typology, Genealogy, Chronology  
SEIICHI SUZUKI

The Anglo-Saxon button brooch is a small disc brooch, about 2cm in diameter and decorated with a single human face mask, found mainly in southern England and occasionally in France. This book offers a comprehensive study of its typology, genealogy and chronology. It investigates formal and structural design features, proposes a prototype- and statistics-based typology, and examines the physical, conceptual and geographical dimensions of the classification. A catalogue of the entire corpus of 209 button brooches and that of related objects is provided in the appendices; there are also over 200 plates and other illustrations, enabling the details to be carefully studied.

£75.00, April 2008, 978 1 84383 362 8  
234 b/w, 115 line illus., 496pp, HB, Anglo-Saxon Studies

TOURNAMENTS

### THE TOURNAMENT IN ENGLAND, 1100-1400

JULIET R.V. BARKER

Scholarly study - does much to illuminate an important element of chivalric culture. HISTORY

An admirable book that can be strongly recommended to anyone desirous of understanding either the nature or the significance of the most popular sport of the later-medieval nobility. SPECULUM

A survey of the tournament in England from its first emergence in the 12th century to the beginning of the 15th, when technical changes altered its very nature.

£16.99, April 2008, 978 0 85115 942 3, 224pp, PB

### MEDIEVAL GHOST STORIES

An Anthology of Miracles, Marvels and Prodigies

ANDREW JOYNES

Truly [...] a landmark work. This impeccably researched and very readable book should appeal to a wide audience. MEDIEVAL REVIEW

Every reader is sure to find something new and many readers may find something to treasure in this sprightly anthology. ARTHURIANA

This collection assembles dozens of ghostly encounters from medieval romances, monastic chronicles, sagas and heroic poetry. These tales bore a peculiar freight of spooks and spirituality which can still make the hair stand on end.

£9.99, October 2006, 978 1 84383 269 0, 232pp, PB

### MEDIEVAL COMIC TALES

Edited by DEREK BREWER

During the middle ages, a common fund of comic tales circulated throughout Europe. Writers such as Boccaccio, Chaucer, Rabelais and Cervantes drew on this material, and used it for their own purposes, but the brilliant medieval versions also deserve to be known in their own right. They are of great cultural interest and considerable entertainment value, varying from humour to farce, from sophisticated literary parody to blunt crudeness. Piety jostles blasphemy, and sex and death are everywhere good for a joke. The tales presented here, translated into clear modern English by experts in their fields, are from French, Spanish, Dutch, German, medieval Latin, Italian and English.

FORTHCOMING

### MEDIEVAL CLOTHING AND TEXTILES 6

Edited by ROBIN NETHERTON & GALE R. OWEN-CROCKER

This sixth volume of Medieval Clothing and Textiles ranges widely, as ever, across England and Europe. It presents two groundbreaking articles in novel areas of textile and dress scholarship: an introduction to a previously unexamined class of embroidery (decorative manuscript repair), and an English-language overview of scholarly research on historical dress in Latvia. Among the other topics considered in the volume are two very different listings of clothing items from medieval Germany: an invented lexicon by the mystic, Hildegard of Bingen, and an accounting of specific real garments worn by ordinary people and donated to finance the building of Strasbourg Cathedral. Papers also consider the mercantile world of clothing in medieval London: one gathers insight on dealers of secondhand clothing from the evidence of historical documents, while the other examines the social rise of the merceres in the light of their representation in literature, and their connections to the literary world. Other articles consider luxurious dress accessories with both worldly and spiritual significance, and analyse a French manual for English housewives, illuminating the often-overlooked topic of home linen production.

### THE MEDIEVAL TRAVELLER

NORBERT OHLER

Translated by CAROLINE HILLIER

Intriguing picture of the realities of medieval travel. 'There is much here to inform and entertain.' HISTORY

How did people travel in the middle ages? Evidence shows that despite all the likely deterrents – danger from man and beast, uncertainty of lodging and food, even the basic matter of finding the way – our medieval ancestors moved about far more than we might expect. They set out even on major journeys with a confidence which argues the existence of a network of major routes and minor tracks, the arteries by which new ideas entered Europe's fast-changing civilisation: the knowledge brought back by travellers played an important part in the development of the medieval world. Norbert Ohler lets the travellers speak for themselves, and from the many sources builds up a picture of what travel was really like.

### THE MEDIEVAL COOK

BRIDGET ANN HENISCH

An accessible overview of medieval culinary practice that will entertain and inform the general public. [...] The general audience will be seduced by the lively medley of cooks and kitchens the book presents. THE MEDIEVAL REVIEW

This book takes us into the world of the medieval cook, from the chefs in the great medieval courts and aristocratic households catering for huge feasts, to the peasant wife attempting to feed her family from scarce resources, from cooking at street stalls to working as hired caterers for private functions. It shows how they were presented in the art, literature and moral commentary of the period (valued on some grounds, despised on others), how they functioned, and how they coped with the limitations and the expectations which faced them in different social settings. Particular use is made of their frequent appearance in the margins of illuminated manuscript, whether as decoration, or as a teaching tool.

CURYE ON INGLYSCH (MIDDLE ENGLISH RECIPES)  
Edited by C. B. HEIATT & S. BUTLER

This unique collection of recipes has been compiled from more than twenty medieval manuscripts. The recipes date from the fourteenth century and are the earliest such examples in English. The menus include the all-important order of serving, that strict etiquette that ruled medieval mealtimes, and which meant that most members of a household were only entitled to the first course and that the more delicate dishes were served only to the higher ranks. This too seems to have remained unchanged for hundreds of years.
