

**KING ROTHER AND HIS BRIDE**

Quest and Counter-Quests

THOMAS KERTH

*King Rother*, a twelfth-century bridal-quest epic, occupies an important place in the history of German literature. The earliest surviving and structurally most sophisticated of the so-called minstrel epics, it has its roots in German folklore and documents the transition from orality to the culture of the book. The work belongs to the subgenre of perilous bridal quest in which the disguised wooer defies the bride's father and abducts her with her consent. But as the

present study is the first to recognize, *King Rother* is very different in that the bride's own actions also form a quest. This underscores her equality to her wooer, the essential qualification to be his wife.

**VISION AND GENDER IN MALORY'S MORTE DARTHUR**

MOLLY MARTIN

This first book-length study of vision in the *Morte Darthur* examines the roles played by sight – seeing and being seen – in the *Morte's* construction of gender, highlighting also the influence of the romance genre in this process. The discussion addresses several key figures: Gareth provides a paradigm of visible romance masculinity; Launcelot's and Trystram's adulteries introduce competing needs for both visibility and invisibility; Palomydes and other less

acclaimed knights, and reactions to their shortcomings, confirm the model of visible gender; grail knights and Malory retain secular romance ideas of vision and gender on the religious quest; and the two Elaynes and Percivale's sister prove femininity more variable and less rigid than masculinity in the text. The book argues that visibility is crucial to Malory's conception of gender identity and, further, that masculinity and femininity are determined throughout the *Morte* by the romance genre.

**A COMPANION TO THE LANCELOT-GRAIL CYCLE**

Edited by CAROL DOVER

*A Companion to the Lancelot-Grail Cycle* is the first comprehensive volume devoted exclusively to the *Lancelot-Grail Cycle* and its medieval legacy. The twenty essays in this volume, all by internationally known scholars, locate the work in its social, historical, literary, and manuscript contexts. In addition to addressing critical issues in the five texts that make up the *Cycle*, the contributors convey to modern readers the appeal that the text must have had for its

medieval audiences, and the richness of composition that made it compelling. This volume will become standard reading for scholars, students, and more general readers interested in the *Lancelot-Grail Cycle*, medieval romance, Malory studies, and the Arthurian legends.

**ROMANCE STUDIES**

NEW &amp; FORTHCOMING

**MEDIEVAL ROMANCE, MEDIEVAL CONTEXT**

Edited by RHIANNON PURDIE &amp; MICHAEL CICHON

A representative selection of English and Scottish romances from the medieval period and explore some of their medieval contexts, deepening our understanding not only of the romances concerned but also of the specific medieval contexts that produced or influenced them. The contexts explored here include traditional literary features such as genre and rhetorical technique and literary-cultural questions of authorship, transmission and readership; but they also extend to such broader intellectual and social contexts as medieval understandings of geography, the physiology of swooning, or the efficacy of baptism. A framing context for the volume is provided by Derek Pearsall's prefatory essay, in which he revisits his seminal 1965 article on the development of Middle English romance.

**PERCEFOREST**

The Prehistory of King Arthur's Britain

Translated by NIGEL BRYANT

*Perceforest* is one of the largest and certainly the most extraordinary of the late Arthurian romances, and is the subject of rapidly increasing attention and research. It is set in pagan times, and tells the history of Britain before Arthur, with many extraordinary and magical adventures. Because of its enormous length – it runs to over a million words – Nigel Bryant has provided a version which gives a full synopsis of the plot and all the episodes linking extensive passages of translation.

**CHRÉTIEN DE TROYES IN PROSE: THE BURGUNDIAN EREC AND CLIGÉS**

Translated by JOAN TASKER GRIMBERT &amp; CAROL J. CHASE

In the middle of the fifteenth century two anonymous writers 'translated' into prose Chrétien de Troyes's first verse romances, *Erec* and *Cligés* (dating from the twelfth century), for the circle of Philip the Good, duke of Burgundy. For a long time unfairly dismissed as trite and slavish renderings of Chrétien's masterful narratives, the prose *Erec* and *Cligés* actually merit careful study in their own right, for these Middle French reworkings adapt the earlier romances to fit the interests of the fifteenth-century public. This is the first English translations of later adaptations of Chrétien's romances: a vital source for the development of Arthurian romance.

## GERMAN ROMANCE IV: LANZELET

ULRICH VON ZATZIKHOVEN,  
Edited & Translated by KATHLEEN J. MEYER

Ulrich von Zatzikhoven's *Lanzelet*, dating from the end of the twelfth century, is a verse translation into Middle High German of what was probably an Anglo-Norman romance, now lost. It presents the story of Lanzelet (Lancelot), but in quite a different version from Chrétien de Troyes' *Chevalier de la charrette*. The first half of the tale concerns Lanzelet's knightly and romantic exploits on his way to discovering his true identity, while at the same time winning the beautiful Iblis as his wife. The second half revolves around Lanzelet's efforts to defend the honor of the Arthurian court and reestablish his own and his wife's kingdoms. As in much literature of the time, sex, violence and magic abound.

## PARTONOPEUS DE BLOIS: ROMANCE IN THE MAKING

PENNY ELEY

*Partonopeus de Blois* is one of the most important works of twelfth-century French fiction; it shaped the development of romance as a genre, gave rise to adaptations in several other medieval languages and even an opera (Massenet's *Esclarmonde*). However, partly because of its complicated transmission history, and partly due to the fact that it has been overshadowed by the works of Chrétien de Troyes, it has been unjustly neglected. This first full-length study of the romance brings together literary, historical and manuscript studies to explore its making as it evolved through seven medieval 'editions', the earliest of which probably predated most of Chrétien's romances.

## WOMEN'S POWER IN LATE MEDIEVAL ROMANCE

AMY N. VINES

The cultural and social power of women in the middle ages is perhaps hard to trace, with evidence for it scarce. This book argues that medieval romances provide a central, but under-explored, source for and examples of such authority. By reassessing the influence exerted by female characters, in a spectrum that includes both intellectual and chivalric aid and, in some cases, patronage, it considers how they functioned as models of cultural, intellectual, and social authority in medieval literary texts. In addition to examples set by the family connections, socio-political networks, and textual communities in which they lived, this study argues that women also learned methods of influence from the books they read. In texts like *Troilus and Criseyde* and *Partonope of Blois*, the female reader encounters an explicit demonstration of how a woman's intellectual and financial resources can be used. The literary representations of women's cultural power expose a continuum of influence from non-material effects to material sway in the medieval patronage system, an influence often unacknowledged in strictly historical and extra-literary sources.

## THE INTERLACE STRUCTURE OF THE THIRD PART OF THE PROSE LANCELOT

FRANK BRANDSMA

Thematically and as a narrative technique, interlace, the complex weaving together of many different story-telling strands, comes to its full development in the intriguing conclusion of the *Prose Lancelot*. This study explains how the interlace works and shows that it is the perfect vehicle for the relation of the events. It discusses the division of the narrative into threads, their interweaving, convergence and divergence, the gradual introduction of the Grail theme and its first climax (the begetting of Galahad), the distribution of information to the audience, the use of dramatic irony and emotions, and many other aspects of this major innovation in story-telling technique.

## EXPECTATIONS OF ROMANCE

The Reception of a Genre in Medieval England  
MELISSA FURROW

This book tackles the task of discerning what were the medieval expectations of the genre in England: the evidence, and the implications. Safe for monastic, trained readers, romances provided moral examples. But not all readers saw that role as valid, desirable, or to the point, and not all readers were monks.

## THE EXPLOITATIONS OF MEDIEVAL ROMANCE

Edited by LAURA ASHE, IVANA DJORDJEVIC  
& JUDITH WEISS

As one of the most important, influential and capacious genres of the middle ages, the romance was exploited for a variety of social and cultural reasons: to celebrate and justify war and conflict, chivalric ideologies, and national, local and regional identities; to rationalize contemporary power structures, and identify the present with the legendary past; to align individual desires and aspirations with social virtues. The essays in this volume consider individual

romances, groups of writings and the genre more widely, elucidating a variety of exploitative manoeuvres in terms of text, context, and intertext.
